Re: Connect America Fund, WC Docket No. 10-90

Dear Ms. Dortch:

Hager Telecom, Inc. (Study Area Code 330889) is an ILEC serving customers in Pierce County, Wisconsin. In reviewing Version 2.1 of the A-CAM illustrative results and comparing the competitive blocks with the Form 477 deployment files released by the Wireline Competition Bureau (WCB) on November 10, 2015, an error was found with a neighboring company's deployment reporting. The neighboring company reported serving all blocks within the study area boundary of Hager Telecom with Fiber to the Home (FTTH) technology.

Hager Telecom, along Interstate Telcom Consulting, Inc. (ITCI) reached out to the neighboring company, West Wisconsin Telcom Cooperative, Inc. (Study Area Code 330971) and discussed the issue. It was found that West Wisconsin Telcom was erroneously reporting census blocks in their Form 477 deployment file. This erroneous filing has eliminated all potential A-CAM support for Hager Telecom in Version 2.1, released on December 17, 2015.

West Wisconsin Telcom has since revised their reported FCC Form 477 deployment files for the reporting dates: 6/30/2014, 12/31/2014, and 06/30/2015. Originally, all blocks in all counties that West Wisconsin Telcom served were reported in the deployment file. The revision now reflects only those census blocks which are within West Wisconsin Telcom's own study area boundary. The revisions were completed and submitted on December 31, 2015.

We respectfully request that the WCB and the FCC, along with Cost Quest, produce another set of A-CAM illustrative results reflecting the revisions to the Form 477 deployment file, so that Hager Telecom will not lose all model based support based on incorrect data.

Sincerely,

A handwritten signature in blue ink that reads "Jerry Burmeister".

Jerry Burmeister
Consulting Manager
Interstate Telcom Consulting, Inc.
