Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it.

I'm tired of having little to no option everywhere I've lived for broadband access, which is ESSENTIAL in my day to day life. From checking my bi weekly paychecks, to filing my taxes and connecting with my friends and family from around the world, having a competitive marketplace is not just good business, it will help EVERYONE out, not just AT&T, Verizon, Comcast, Cox, Time Warner and Charter. Rex Campos
