The FCC has already made known its allegiance to political groups. Allowing this merger WITHOUT One America News will show the world that the FCC is cooperating illegally with certain political entities. This is an attempt to stifle our most precious Constitutional right of FREEDOM OS SPEECH and FREEDOM OF THE PRESS. Why aren't the FCC's plans being openly reported by all news media? The American public deserves fair and equal treatment when it comes to the government's unwillingness to be open and fair except when it serves its own interests. I demand a written summary and report of why this immoral merger is even being considered. Doesn't the Federal Government claim to be fair and equal in its dealings for ALL Americans?
