

60001399774.txt

I have been able to learn more about international news with One American News, than with any other major cable news outlet. James Madison would have agreed with allowing One American News to be part of the potential new Charter cable company. I could have seen Madison writing under a pen name in the "National Gazette" similar type of comments. Let all voices be heard. Citizens have the liberty and intelligence to decide for themselves, their own opinions on worldly news. One American News is a viable source of news, like others, to provide the variety that our country needs in times like now!
