To the FCC, I oppose the transfer of customers of Time Warner cable to bighthouse and Charter. Why? Charter has the highest cable rates and equipment lease fees. My only choice is only Time Warner cable I have no other choices. I could not afford Charter prices. Is this deal fair to the smaller markets trying to get in on cable and fiber optics NO. Is this deal fair to Time Warner cable customers NO. I have NOT gotten anything in writing about my account being transfer or sold to Charter. My account is being sold to Charter I as a customer of Time Warner Cable say No to this deal. My private account with TWC is mine not charters. No Charter I could afford them. If they couldn't get the deal with comcast the no deal with Charter. Thank you..
