Washington DC 20554

RE: Proceeding Number 15-49

Dear Mr. Wheeler,

On behalf of the Charter Township of Caledonia in Kent County, Michigan, I write to add my support for the proposed merger between Charter Communication, Time Warner Cable, and Bright House Networks.

Charter Communications is the primary cable service provider in our community. In addition to the services provided to our residents and area businesses, Charter has serviced our township facilities with cable, telephone and broadband for many years.

We are particularly pleased that this merger is promised to facilitate a number of service enhancements in our area. These include a much-needed build-out of networks in both residential and commercial areas, the creation of 300,000 out-of-home access points, and a broadband access program for low-income consumers. In addition, Charter has pledged to import thousands of new jobs to the US from offshore call centers.

We look forward to these and other benefits that this proposed merger will make possible for our residents and business owners.

Sincerely,

Richard C. Robertson, DDS
Treasurer and Township Administrator
