My family is original settlers of this country; my 9th Great-grandfather, Rev. Roger Williams, founder of the great state of Rhode Island; my great uncle Richard Stockton was a signer of the Declaration of Independence, another great uncle, George Hume taught George Washington, our first president land surveying. (Brit Hume of Fox is one of us). My family further contributed to this amazing country Sayles Hall on Brown University and my 4th Great Grand-father, Samuel Rice of Rice City, Rhode Island built the Rice Church and funded the Shakers of White Water, Hamilton County, Ohio in early 1800.

My family many other "American" settlers love this country more than words can say. One America News is the only News outlet that actually reports the absent any spin; just like the old days when David Brinkley delivered the news; I've met his daughter Alexis.

This letter is written to the FCC in support One America News. I am sure this only news outlet that our founding fathers would be proud of, void of bias and outside interests.
