One of the many freedoms I enjoy and count on as an American is the ability to have multiple sources of news. It is corruption at its best when our government will allow media conglomerates the ability to exclude smaller sources from being allowed to air based upon political or ideological differences. By allowing a merger of this type without requiring them to air all media sources small and large, private or family owned amounts to complicity in allowing a monopoly. Please require this merger if allowed to mandate access and airing of all media companies. I want to hear from One America News as well as Aljazeera even though I may not agree with their points of view. Freedom of speech includes freedom of the press.
