Please allow Charter Communications to carry One America News Network because they are a wonderful, along with being my favorite news media outlet because they give such great unbiased news reporting. It is not fair that the consumers as well as One America News Network or any other independent programming networks are affected by these type of unfair business practices by Charter Communications or any other news network mega-conglomerates. Do the right thing and allow One America News and other family owned, independent programming to have a voice for the consumer and make Charter Communications take action to ensure that One America News Network and other as well as other independent programming are treated fairly and their assets protected.

~Thank you
