As a dedicated Christian living in Grants Pass, I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because the broadcast of God's word is the one thing most likely to help the emotionally broken and hurting people of our nation and our very needy world. Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because with so much negative programming on television these days and with so many threats to our religious freedoms lately, it is of paramount importance for us to ensure that we safeguard not only Christian TV, but all religious TV and other broadcasting rights for the future of religious liberty in America. Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.
