Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it. And if it isn't satisfactory and competition isn't making it cheap then we should consider nationalizing to guaranty the most efficient, democratic and cheapest service possible for all Americans. Thank you
