I do not believe mergers like this should be allowed. It makes one single person or group able to dictate the news everyone will get, and will surely channel people to think only one way. It is definitely not conducive to freedom and the multiparty system.

As to the One America News Network, I do not feel it is in the interest of citizens to allow a single "mega"-network to exclude them, forcing everyone to watch only one version of the news rather than get both sides of the issues.

Please disallow this merger for the good of the people. Thank you.
