It is absolutely imperative that One America News remain available to the public. It is prejudice that Charter and Time Warner have already decided not to carry OANN and they have enough money to buy the planet and with a stroke of a pen affect over 20 million viewers who adore this channel. They are targeting OANN and should not be permitted to do this to any network or programming they don't like or may not agree with. I respectfully ask you NOT to allow this merger and the bullying. Big corporations are harmful to the American public. Look at what United Airlines has done to the cost of travel. I am aware of their portfolio and now there is nothing that can be done except pay them whatever they decide to charge. Please don't let this happen to OANN.
Thank you,
