Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it. Broadband is much more than a novelty. We now rely on it for entertainment, business, safety, and everyday living. Access should be reasonably priced and easily available to all of us! Mark Nobriga
