Re: Applications of Charter Communications, Time Warner Cable Inc. and Bright House Networks for Consent to Transfer Control of Licenses and Authorizations, MB Docket No. 15-149

Dear Chairman Wheeler and Commissioners:

I am writing on behalf of Television Korea 24, Inc. (TVK24), a leading Korean broadcaster in the United States, headquartered in Los Angeles, California. TVK24 owns and operates two digital 24-hour television networks that aggregate and broadcast the best programming from Korea-based networks in combination with TVK24 original programming such as daily news, cooking shows, golf shows, auto shows, sporting events, weekly lifestyle and community related shows and local reality and documentary series. The majority of TVK24 sourced content is exclusive to TVK services.

TVK24 has enjoyed strong business relationships with both Charter Communications and Time Warner Cable & Bright House Networks. Charter Communications, Time Warner Cable and Bright House Networks have carried TVK in major metropolitan areas with significant Korean-American populations, first launching our network in the greater Southern California area in 2006 and 2008 followed by Hawaii and San Diego in 2010. More recently, in May 2013, TVK and TVK2 launched on Time Warner Cable systems in its New York/New Jersey service area with an assistance from Mr. Eric Goldberg, Vice President of Content Acquisition. We want to extend our deepest gratitude towards Mr. Goldberg for the meaningful contributions he has made. His selfless acts have positively impacted our local community in many life-changing ways. Mr. Goldberg understands the importance of diversity and played a very important role in launching Korean programming on Time Warner Cable's channel line-up.

TVK24 greatly appreciates the support that Charter Communications, Time Warner Cable and Bright House Networks have given to our networks by distributing our programming to millions of households in the United States. All three companies have demonstrated a commitment to accommodate diverse, quality programming in their channel lineups that meets the needs and interests of viewers and communities of different backgrounds. For TVK24, in particular, carriage of our networks provides the Korean-American community with many popular shows, as well as news and sports, available 24-hours-a-day.

Based on our experience with Charter Communications, Time Warner Cable and Bright House Networks, we strongly support the proposed merger. We are confident that Charter Communications will continue to demonstrate the same commitment to diverse programming serving different communities, including Korean-American viewers, after the transaction. We hope that the Commission will consider Charter, Time Warner and Bright House's proven record of support for independent programmers in promptly approving the transaction.

Sincerely,

Eric S. Yoon  
Founder & C.E.O.
