Re: Notice of ex parte communications,
GN Docket No. 12-268, Expanding the Economic and Innovation Opportunities
of Spectrum Through Incentive Auctions

Dear Ms. Dortch:

On February 1, 2016, I met with Martin Doczkat, Barbara Pavon and Mark Colombo. We discussed the analytic techniques used to determine the borders of TV coverage areas under hypothetical conditions, and to repack TV spectrum efficiently while preserving existing coverage areas. This topic is relevant to the upcoming Incentive Auction, and is also related to my research at Carnegie Mellon University.

Sincerely
Jon M. Peha
