I hereby request that WJLP be assigned over the air VHF channel 3 which corresponds to the low-VHF channel 3 on which it is actually broadcasting.

I also hereby request that DirecTV be directed to immediately include WJLP in its New York City locals package that services the State of New Jersey (WJLP has chosen "must carry"). WJLP has programming that covers New Jersey (i.e. "Jersey Matters"). It's about time that NJ has a full-time, full-power, VHF channel that addresses NJ issues.

Additionally, I enjoy much of the Me-TV programming WJLP carries.

DirecTV and Service Electric TV of NJ should be compelled to add WJLP to their locals lineup as "must carry" during this decision period - which may continue to go on for some time. Meanwhile, NJ residents are denied NJ-informational programming.

Thank you
