

Dear FCC,

I watch RFD tv on Dish Network.

This idea of letting Verizon drop RFD is plain wrong. This is nothing more than urban bias against rural America. Without us they'd starve to death!

How can anyone make the case to drop RFD when they keep PBS. RFD stands on their own and PBS takes tax dollars?

You sirs need to set forth regulations that incorporate the independent channels as they are the only thing worth watching anymore.
