

60001517753.txt

I was horribly disappointed when my Verizon Fios service, abruptly dropped the RFD-TV channel.

I initially switched to Verizon Fios 8 years ago because they were the only ones who carried RFD-TV.

I put in a complaint with their company about the loss of RFD-TV, and never even got the courtesy of a response.

Something must be done about these big companies trampling over a wonderful entertainment service such as RFD-TV.

Sincerely yours,
Peter Kern
