I want to thank you for taking the time to consider my viewpoint. RFD TV is the only channel I can let my Great grand children watch freely without worrying about violence or objectionable programming. As you know, there is so much on TV in today's world, that young minds should not be exposed to. It just boggles my mind that a wholesome channel like that would be jerked off the air because some management decision that money is more important than young minds. Our country was a better place when I was young and my parents didn't have to explain to me the explicit commercials that appear on the media now, much less the demeaning programming to all individuals, races, sexes, age or genders.

In addition there is no other channel that represents the rural american view like RFD, have you actually watched it? if not, you might try, and understand just how goodness is represented without bias of any kind. I am not an old "prude" by any means, but there should always be something wholesome and natural as an alternative to a complete loss of cultural values. Compared to RFD TV, there is nothing anywhere close. It is refreshing to watch and learn things that is just not available, even on Public television
Thank you,
Respectfully,
Mr. Frank
