

**Statement of Dana J. Puopolo in support of FCC proceeding RM-11760**

As a holder of a General Class Amateur radio operator 's license (call sign K1PUW), I support the proposal that will grant Amateur radio licenses for the life of their holder (RM-11760). Doing this will accomplish several good things. First, it will insure that all amateur radio operators will be continuously licensed. Next, it will remove an administrative burden on the FCC staff (that of renewing licenses). Finally, it will make it easier for those of us who wish to maintain the legacy of amateur radio by insuring that our families' amateur call signs will remain available for us to get for ourselves once they pass on (K1PUW was my father's call sign and It was only by sheer luck that it was still available years after he died).

I support RM-11760.

Respectfully submitted,

DANA J. PUOPOLO
