My husband and I love RFD TV. We used to watch it half of our tv viewing time. What a disappointment it has been to lose it. We feel that we are not getting our money's worth at all with being customers of Verizon Fios. We are planning to discontinue service when we figure out what other alternatives we have. We enjoy so many of the different music shows. We absolutely fell in love with a family band called L'Angelus that performed on The Marty Stuart Show. Their music was just refreshingly uplifting and so enjoyable. We have become fans of this little group and have seen them live a few times with a wonderful singer named Marie Miller from Front Royal Va. We feel we are being forced to watch programming of little interest because of a bad decision by Verizon.
