To the F.C.C. Commission:

I would like to submit my informal comments on the request submitted by Mr. Krotz. After carefully reviewing his proposal and some of the other comments I agree with his request to modify the current rule of renewing Amateur Radio Operators licenses from the current 10 year renewal to a lifetime license. In my opinion it may free up some resources in the commission that could be used in other area's for example enforcement. Thank you for your time.
