Dear FCC, I watch RFD all the time on Dish Satellite. How can you possibly take RFD away from us? There are no good shows on the major network other than the local news or a couple good daytime programs. With all the turmoil in the world today, it is nice to have some good relaxing entertainment. There would not be so much crime if it was not on tv for the criminals to learn how to do this stuff. If you take RFD off, you can be sure I will not use one Verizon product ever again. The rural and senior population needs some relaxing entertainment and they deserve for all they have done and do now for our country.
