RFD TV is the only family channel on TV today that is entertaining, and informational without profanity, and edited scripts. I hold Verizon stock, and I am really unhappy with their lack of concern for the millions of folks who watch RFD TV. I Hope the FCC will do it's it's job, and keep this clean family show on the air. We have to many big business CEO' pushing around the those who are of less wealth. This is not only offensive, it is UN-American. I would like to also see the FCC crack down on those news media who refuse to report news truthfully and equally. Please keep RFD TV on the air. there are other things the FCC can do to bring Verizon into fair compliance
