My husband and I watch RFD-TV each and every day and we are furious to learn that this station may be removed! We are asking the FCC to protect this station and ensure that it is kept as a part of independent programming.

We have not only recently signed up for Verizon FIOS TV; however, we bundle with them with our telephone, internet, and Direct TV in two homes we have. If they are responsible for the removal of RFD-TV, we will most likely cancel any and all future business relations with them.

Other TV programming seems to now consist of programs that only promote violence, sex and inappropriate language that we do not and will not watch. It seems that with the removal of RFD-TV, Verizon FIOS TV is showing that they no longer appreciate the rural areas of our country that are and have been the backbone of this great nation!!

They evidently also do not appreciate the elderly citizens living in this country if they want to remove RFD-TV as this station provides hours of entertainment for older citizens such as Molly B Polka Party, the train show, Country Family shows, and the like.

PLEASE ensure that people like I am and my husband can continue to watch RFD-TV programming. Thank you very much!
