We watch RFD TV on ATT U-Verse, My husband and I spend our Saturday evenings as well as many other evenings watching the programming provided by this station. It is clean, often Christian based programs that are difficult to find on regular stations. As Christians, we feel that more of this type programming should be available to families. We feel strongly that this type of programming should be provided on the economical cable packages for people that are retired or disabled and unable to afford the more expensive packages provided by the cable companies. We would love for you to allow RFD TV to air their programming for folks like us that enjoy it so much! Thank you for your time.
