I conditionally support RM-11760, with the provision that holders of Vanity Callsigns should be required to confirm their continued use of their callsign every five to ten years. This would allow for callsigns assigned to deceased licensees to be more quickly relinquished to the available pool. Any such reporting should be in the least burdensome way possible for both the Commission and the licensee (perhaps simply by updating a record on the ULS site or replying to an email sent by the ARRL or other such volunteer body).
