People have forgotten the phrase "We The People" and that's why I'm writing this note. Do not let cable companies drop One America News from their line up of networks they offer. It's not about what the cable companies want and believe, it's what the people want. WE ARE THE ONES PAYING FOR THE SERVICE!!!!!! Please don't let the cable companies control what we can watch. This is the US not a third world country.

Thank you

A. Palmer
