Please allow fair and equal treatment for OANN and all other family owned and independent programming networks. Americans need to be able to see all of the different sides of news and be able to make our own decisions now more than ever people need to be involved, in big corporation should not be able to handle that or ticket to one side of the other to favor their beliefs. Programming on television is a service by definition should be servicing the people. Not large corporation agenda. thank you and God bless
