We reject (&avoid) ALL ugly, dark-sided programs, all these sat. & cable companies "force" us to buy. We will only watch the "rare" FAMILY channels, safe & good, for our choices. Independent programs, such as RFD-TV is our No. 1 choice, for our entire family. We have the right to see how our food is grown, on RFD TV. We are urban-based, in the Chicago metro area. RFD TV offers us everything we desire to view. We will cancel Sat. & cable if they do not provide us senior & rural programming. We do believe; our politicians only listen to these big powerful companies; because of the "donations" made to their campaigns! HOW are food is grown, is vital, to us (and maybe you!)
