

Sir:

I am not against the lifetime licenses but there are several things to consider. As several others have mentioned the license should be linked to tax or Social Security numbers to allow the call to be reassigned at the original hams death. Many novice licensees and even some technician and general class licensees don't continue with the hobby and those calls should somehow be returned to use. I am actively trying to get more people interested in amateur radio but would hate to see 3 X 3 call signs.
