STOP THE MONOPLY!!!

ALLOW cable customers to get their set-top boxes from vendors other than their GREEDY cable TV service providers !

Force Competition to exist in the Cable & Cable box industries!!

I pay cablevision over \$26/mo (\$312/yr) for 3 cable boxes +\$13/mo (\$156/yr) extra for one of the 3 which is a DVR recorder for a total of \$468/year. Its all nothing but a monopoly that the FCC continues to sanction.

Look back decades ago and see that when AT&T had the nationwide landline phone monopoly and see that we experienced the same situation where-in the FCC sanctioned that we were required to lease our phones from AT&T, later when we were allowed to buy our phones the consumer annual cost was substantially lower because it created competition among phone manufacturers.
