I watch RFD TV on Direct Tv channel 345. This station and others like it need to stay on the air. There are many people who watch this as pure enjoyment. There are others that watch the Ag shows and auction shows that they provide for use in there everyday life and their living. There are the older generation who watch it as there main station. It is totally unbelievable that and thought of removing this station from the air. Please keep this station alone and on the air!
