

Dear Sirs:

I am retired on a very limited income and am presently paying over 138.97 monthly X 12= \$1667.00 yearly. My wife and I keep our grandchildren often and cable TV is a good aid in keeping them entertained. I remember cables infancy when they were only going to charge for better quality picture with no advertising. Boy were they wrong. Prices keep rising each year. We need help with this problem.

They are sucking our life blood away.

Oscar Rash
