

Regarding Proceeding Number: 16-41

It is important that the public have choices for independent programming on television. Please protect the independent programmers. Please instruct that RFD HD be offered on DIRECTV. It is in HD with Dish Network, which my husband & I did have, but switched to DIRECTV recently to save money on an intro promotion. We really miss seeing it in HD. Due to my husband's poor health, he spends more time watching TV than he used to.

Please have RFD-TV offered in the most economical cable package, and not put on an expensive tier. My husband & I are retired and on a fixed income. We have enjoyed RFD-TV programming for several years and can't imagine our lives without it. It is clean wholesome entertainment. We enjoy the whole spectrum of programming, from rural heritage to reruns of classic country music shows. We have told many of our friends about RFD-TV and they share in our appreciation for this programming alternative.

Thank you.
