Chairman Wheeler,

I'm writing to urge you to restore broadband competition by fixing the broken market for high-capacity broadband lines. The FCC must address anti-competitive behavior in this market to reach its goal of delivering better, faster, cheaper broadband to all Americans. The future of our information economy depends on it. Most of the world is way ahead of us in this. We are on the road to destroying our way of life and few of you see this. Please fix this mess and give everyone a fair deal. kathy edwards
