Hi. I believe the RFD channel should remain accessible. My father, who is in his mid 70's, watches it religiously every evening, as well as periodically during the day. I watch with him several times a week. It is his one true joy. He is still doing some farming and he has also followed the careers of the many, many famous country singers in the program's seen on the channel. Please keep it on.
Thank you, Deborah Park & Vincent.
