I watch RFD-TV on Dickey Rural Networks from my home in Marion, ND. I get valuable information for our farming business regarding USDA reports, farm commodity markets, conservation practices, weed control, improved farming practices, equipment values, livestock reports, weather reports (as it relates to farming), and more.

RFD-TV provides informational, educational, and entertaining programs. We feel proud that the American Dream is alive and well as shown by all the independent programming on this great new channel.

Thank you for supporting the possibility of an American Dream still happening today!!

Sincerely,
Becky Knudsen
