

Why it is important that the public have choices for independent programming on television. Ask the FCC to protect independent programmers. Insist that RFD HD be offered on DIRECTV. Suggest that independent programming, like RFD-TV, should be offered in the most economical cable package, and not put on some expensive tier where the customer has to pay more. Urban based media giants should not block rural content from being distributed due to their own bias.

Every comment is important, and takes us one step closer to winning this fight. Please take the time to invest one more letter in RFD-TV. The public comment period will close soon, so file without delay. If possible, get other family members or fans of RFD-TV to also file a comment too.

Thank you so much for your support. The FCC is being very proactive, and is very interested in receiving public comments. Let's make RFD-TV and the support of rural and senior citizen programming the #1 issue for their consideration. We will continue to keep you updated.

We are writing today in regards to proceeding 16-41. The issue about RFD-TV.

We understand that programming is in danger of being discontinued on many cable outlets.

We are with Direct TV because they are one of the few that offer RFD-TV and Hallmark in our area.

We chose Direct TV for that reason.

We really enjoy RFD-TV in particular for the entertainment shows in particular Larrys Country Diner and the Gaither Homecoming Shows as well as the AG shows and Polka Shows and that they should be in the basic package and not the premium package. A large amount of seniors that I know of really enjoy these shows despite the fact we live in urban areas.
