

60001526282.txt

Dear Sirs,

Please consider RFD TV for us older citizens because, we are dependent on their program information that deals with our lifestyle. I.E. Weather, Planting for gardens as well as wholesome entertainment. I believe this type of programing will also build the interest of our Future Farmers of America to benefit our society and carry on the banner of knowledge for our country.

Thank You !

Bonnie Bercegay
