RE: MB Docket No. 15-149

Dear Chairman Wheeler,

Park Township, Michigan, is a growing community of 18,000 residents on the western edge of the state, bordering Lake Michigan. We maintain a diverse economy and we are constantly seeking to harness the ingenuity of our businesses and entrepreneurs for economic growth. We believe the merger of Charter Communications, Time Warner Cable and Bright House Networks would benefit our community through high-quality broadband at affordable rates.

From information available the merger would establish New Charter, a company committed to innovation. New Charter would offer the bandwidth flexibility and pricing stability consumers want, and provide an immediate positive economic impact.

We understand and are pleased that New Charter would offer customers a variety of broadband speeds starting with 60 Mbps and peaking at the ultra-fast 300 Mbps while making every attempt to keep costs low. By pledging that it would not impose modem fees, data caps or usage-based billing, New Charter's commitments ensure customers would work with flat rates and would never be surprised by a monthly bill.

We know that economic development is tied to the tools our residents and businesses need to be successful in their own industries. Cable broadband is a critical tool to efficient and effective businesses, and New Charter's commitment to modern products at affordable rates would greatly assist in helping our business community be successful. I support the merger and I urge you to as well.

Sincerely,

Jerry Felix  
Township Manager  
Park Township, Michigan
