I had been watching RFDTV on Verizon. About 4 years ago in order to get RFDTV I had to pay Verizon \$4.00 extra a month in order to get RFDTV then I had to sign up for a plan with about 50 channels that I did not even want. My Verizon plan has gone up to \$180 a month and now they have discontinued RFDTV and had not lowered my total bill. I am 80 years old and there is little to watch on TV except the Rays baseball and RFDTV. I am not a horsy person but I do enjoy country music although I do not live on a farm or in the country. Mr. Gottich still needs a haircut.
