I submit that I am against extending the current 10 year term to Life time term.  
Because of the following:

- 1) License call signs are finite.
- 2) To clear the system would be a manual process and delayed.
- 3) Opportunity for Vanity Call Signs would be limited or extinct.
- 4) Operators who are deceased or move out of country or out of operation would still exist.

To cut cost, I suggest that the FCC grant a 15 year licenses this would help reduce the burden and spread out the renewal process. Otherwise I like the 10 year renewal period.

Respectfully submitted,  
Anthony J Testa W2AJT
