Washington, DC 20554

RE: MB Docket No. 15-149

Dear Mr. Wheeler:

On behalf of Yankee Springs Township, Barry County, Michigan, I write to add my support for the proposed merger between Charter Communication, Time Warner Cable, and Bright House Networks.

Charter Communications is the primary cable service provider in our community. In addition to the services provided to our residents and area business, Charter has serviced our township facilities with cable, telephone and broadband for many years.

We are particularly pleased that this merger is promised to facilitate a number of service enhancements in our area. In this technological world in which we live, the importance of fast reliable broadband connection is more important than ever. The fact that Charter has committed to expanding its network by faster internet online services, affordable pricing for seniors and low-income residents and a commitment to creating American jobs speaks of its integrity and commitment to customer service.

The Township of Yankee Springs is in full support of this proposed merger.

Sincerely,

A handwritten signature in blue ink that reads "Janice C. Lippert".

Janice C. Lippert, Clerk  
Yankee Springs Township
