Hello,

I would like to express my support for RFD TV, and it's quality programming. I believe this station is an important one for individuals such as my self who enjoy a rural lifestyle. I feel strongly that this station should remain readily available on any television providers lineup. I especially want it to stay on Direct TV in the lowest cost package. In an era where so many areas of our choices are influenced by major corporations, I think it is more important than ever to keep independent providers of news and entertainment readily available.

Thank you for your time,

Jeremy
