I watch RFD-TV on DISH Network daily. It is a wonderful way to learn about our different states, the government, all types of agriculture, farming, and all types of farm animals. It spans so much of the rural atmosphere that it could be (and should be) shown in all schools for children to learn where their food comes from, how it is raised, how it is transported, and how it is processed, packaged, and delivered. RFD-TV has been a breath of fresh air for MILLIONS across the United States. As old as I am, I am still learning so much from this channel. Please do not take this channel away, we love it!!

Sincerely,  
Debbie Morrow
