Hello,

I am writing today in regards to the plan to revitalize AM radio. Although I have not read the specifics of this plan, I am completely IN FAVOR of allowing AM stations to petition for better coverage (both daytime and nighttime). Any station that can show how they really SERVE their community should be allowed to expand and provide a better service.

I listen to and love the work of WION, Ionia and WILS, Lansing. I truly believe these stations are in business to improve the lives of their communities and provide a high level of service to the listener.

Thank you for your consideration.

All the best,
Marcus Davenport
