I watch RFD-TV on DirecTV and would really appreciate it if you would leave this channel alone! Living in the West RFD-TV is the best programming on for the farming/ranching people that grow your food! No stupid reality shows, just shows of interest to us. Do you know that many children do not know where milk comes from? RFD-TV provides that information about all aspects of ranching/farming for the misinformed and the knowledgeable. Leave it on the air!!!!
