I watch RFD TV on Dish Network and it is, by far, my favorite channel. I believe that RFD TV has the best family oriented programming of any channel out there. It is so nice to be able to watch programs with no vulgarity or decadent material, something I can watch with a 5 year old and not feel embarrassed. I love the country music shows and the old TV shows like "The Lone Ranger" and "The Roy Rogers Show. This type of programming should be available to every one regardless of age! Please keep RFD TV available to us all!
